

## NOAA Technical Memorandum NMFS-F/NEC-75

This TM series is used for documentation and timely communication of preliminary results, interim reports, or special purpose information, and has not undergone external scientific review.

# An Indexed Bibliography of Northeast Fisheries Center Publications and Reports for 1988

**Jon A. Gibson**

*Woods Hole Lab., National Marine Fisheries Serv., Woods Hole, MA 02543*

**U. S. DEPARTMENT OF COMMERCE**

Robert A. Mosbacher, Secretary

**National Oceanic and Atmospheric Administration**

John A. Knauss, Administrator

**National Marine Fisheries Service**

James E. Douglas, Jr., Acting Assistant Administrator for Fisheries

**Northeast Fisheries Center**

**Woods Hole, Massachusetts**

December 1989

## **ORDERING INSTRUCTIONS**

Single copies of most (but not all) listed publications, reports, and abstracts are available free of charge--subject to supply. Address all requests to: Information Services Section, Northeast Fisheries Center, Woods Hole, MA 02543.

Introduction .....	1
Bibliography .....	2
Publications in Peer-Reviewed Media .....	2
Publications in Non-Peer-Reviewed Media .....	7
Published Abstracts .....	12
Indices .....	15
Organisms .....	15
Geographic Areas .....	20
Topics .....	22
Authors .....	29

## **INTRODUCTION**

The following list of peer-reviewed publications, non-peer-reviewed publications and reports, and published abstracts by Northeast Fisheries Center employees is the 12th issue in an annual series of such lists. The lists for 1977-83 were issued as the Collected Reprints of the Northeast Fisheries Center (CRNFC). Each issue of the CRNFC included a copy of each peer-reviewed publication by Center employees. The lists for 1984-86 were issued as the Northeast Fisheries Center Publications and Reports (NFCPR). The 1984 issue of the NFCPR included a list of the peer-reviewed publications by Center employees. The 1985 and 1986 issues of the NFCPR included a list of both peer-reviewed publications and some of the non-peer-reviewed publications and reports by Center employees. Primary purpose of the CRNFC and NFCPR was documentation of Center publications and reports.

The list for 1987 was issued as An Indexed Bibliography of Northeast Fisheries Center Publications and Reports (IBNFCPR). The 1987 IBNFCPR expanded the purpose of the series to include not only documentation, but also reference. The reference role was accomplished through subject and author indices. The subject index was further divided into three subindices--"Organisms," "Areas," and "Topics"--to facilitate its use by those in the fisheries research and management fields. This 1988 list is similar to the 1987 list, differing only in that published abstracts are included, and that the indices are cross-referenced.

Some of the publications and reports by Center employees deal more with administrative than scientific matters. Consequently, not all publications and reports are appropriate for this document. Only those publications and reports are included that were specifically identified and provided by the Center's Executive Staff. Several publications and reports which were issued in 1985-87, but which were inadvertently omitted from the 1985-87 lists, have been included in this 1988 list. They are noted by an asterisk. Authors who were Center employees at the time they prepared their publications and reports, and/or who were Center employees during 1988, are denoted in the list by all capital letters.

## BIBLIOGRAPHY

## INDICES

### ORGANISMS

For those fishes, mollusks, and crustaceans covered by the American Fisheries Society's (AFS's) respective lists of common and scientific names<sup>1</sup>, only the common name -- if there is one -- is mentioned in the following index. For organisms covered by the AFS lists for which no common name exists, the scientific name is mentioned, followed by the encompassing order and family names within parentheses.

For organisms not covered by the AFS lists, if they have common names, then the common name is mentioned, followed by the scientific name. If they don't have common names, then the scientific name is mentioned, followed by -- for higher/more advanced life forms -- the encompassing order and family name within parentheses, or -- for lower/more primitive life forms -- a generic descriptor within parentheses (e.g., bacteria, algae, siphonophores).

#### A

Acadian redfish .....	42,67,117,127
<b><i>Archromobacter</i></b> spp. (bacteria) .....	12
Alaska king crab .....	87
<b><i>Alvinocaris markensis</i></b> (Decapoda: Bresiliidae) (sp.n.) .....	99
<b><i>A. muricola</i></b> (Decapoda: Bresiliidae) (sp.n.) .....	99
<b><i>A. stactophila</i></b> (Decapoda: Bresiliidae) (sp.n.) .....	99
alewife .....	117
American lobster .....	2,37,38,117
American plaice .....	22,67,117
American shad.....	10,117
anadromous fish .....	5,10,11,73,77,117,127,196,198
anchovy .....	see bay anchovy
<b><i>Anguilla</i></b> anguilla .....	see European eel
Antarctic fur seal ( <b><i>Arctocephalus gazella</i></b> ) .....	152
<b><i>Arcfocephalus gazella</i></b> .....	see Antarctic fur seal see <b><i>Sagitta elegans</i></b>
arrow worm .....	
Atlantic cod..	8,16,52,64,67,114,117,125,127,135,148,167,175,183,192
Atlantic herring .....	23,45,67,117,127,167,181
Atlantic mackerel .....	24,67,110,117,127,154
Atlantic menhaden .....	40,168,175
Atlantic salmon .....	73
Atlantic surfclam .....	7,59,67,79,117,142,155
Atlantic tomcod .....	10
Atlantic wolffish .....	117

#### B

bacteria .....	12,13,168
barndoor skate .....	117
barramundi ( <b><i>Lutes calcarifer</i></b> ) .....	175
bass .....	see black sea bass or striped bass
